Translation of decision

2023-11-30

Dnr HS 2023/1

Discontinuation of a course

The course Molecular biotechnology - modelling A1F, 7.5 credits (BI759A) is being phased out and will no longer be offered at the University of Skövde. The course was given for the last time in the spring of 2023.

The course consists of five examination parts: four written assignments (1-4) 1.5 credits each and one oral presentation of 1.5 credits.

The following examinations are offered to students who have not completed the course:

Written assignment 1-4, 1.5 credits each

Week 9, 2024-02-29

Week 25, 2024-06-20

Week 34, 2024-08-22

Oral presentation 1.5 credits

Week 10, as agreed with Course Coordinator

Week 26, as agreed with Course Coordinator

Week 35, as agreed with Course Coordinator

No further opportunities will be offered to complete the course, in addition to the above occasions.

The examiner is Zelmina Lubovac.

The written assignments are available through the learning platform in the Student Portal and submitted for examination as instructed on the course site. To be able to conduct the examinations, you must inform the Course Coordinator your email address at the latest four weeks before the examination.

If the examination part Oral presentation is not passed, the oral presentation of one of the written assignments is conducted digitally the week after submission of the written assignment. The Course Coordinator, in dialogue with the student, decides when the presentation shall be done and which written assignment that shall be presented.

Contact information course coordinator: Mikael Ejdebäck, 0500-448610,
