1. Geography

Describe briefly the differences between the south of Sweden and the northern part of the country, from the perspectives of both topography and climate. Compare to your home country too. What is the weather like there, and what does the landscape look like in different parts? Also, how do you think the lifestyle in the two countries are affected by topography and climate? (approximately 1/2 page)

2. Culture

Describe good and bad manners in Sweden. Compare to your own culture/s - what is considered good and/or bad in your countries and culture/s. Write 3-4 examples. You may use examples either based on course material/discussions during lectures, or your own examples and observations. Reflect on, and discuss, your choices thoroughly and give specific examples to back up your discussion. (approximately 1/2 page)

3. History

Mention 2-3 important historical events or people, and describe the affect they may have had in the shaping of the modern Swedish society. Also, mention 2-3 important historical events or people who/which have been of significant importance in your own country.
(approximately 1/2 page)

4. Society

How would you describe politics in Sweden – the political scene, the political parties, the parliament and the government, and important current issues in the political debate, possibly also mirrored in the media? (choose 2-3 issues). In addition, compare the Swedish political scene to that of your own country and what is in focus in the political discussions there. Look for similarities and differences.
(approximately 1/2 A4 page).
