Important information about filling out the form

Application for transfer of credits

Transfer of credits

Students admitted to the University of Skövde who have completed and passed previous university studies are eligible to apply for transfer of their university credits to the University of Skövde. This may also be the case for similar educational programmes or knowledge gained in other ways, e.g. through work experience. The University will make an evaluation as to whether the previous studies and/or prior learning are eligible for a credit transfer of course credits according to The Higher Education Ordinance, Chapter 6, § 6-8 (SFS 1993:100).

Instructions for applying for transfer of credits of course or examination

1. When can an application take place?

When you have been accepted to the University and registered for a course/educational programme at the University of Skövde, i.e. you are a student, you have the right to apply for transfer of credits. It is important that you make this application well in advance of the beginning of the course you wish to replace with a transfer course.

2. Prior to application

The basis for granting transfer of credit is always based on the objectives and content of the course for which you wish to replace. Therefore, before you apply for transfer of credits, make an inventory of your knowledge and skills in relation to the course objectives for the course which you wish to replace and are seeking credit for.

Read the syllabus and the course's objectives and content and review what course literature is used.

If you deem that your knowledge and skills from earlier studies and/or prior learning are largely in congruence with the course's objectives and requirements, continue with your application.

3. Fill out the application

- Provide your personal information and contact information.
- Indicate the course you wish to replace when you transfer credits (A1).
- If you wish to transfer a part of the course, indicate which examinations you wish to replace or highlight the objectives in the course syllabus you consider to have the corresponding knowledge and skills (A2).
- Indicate which earlier studies and/or prior learning you consider are the basis for your transfer of credits (B).
- Motivate why you are applying for a transfer of credits.

4. What should be attached to the application?

The University of Skövde's evaluation of transfer of credits is based on

- Qualifications from prior university studies; the course syllabus which was in effect when the credits were earned, a list of course literature and a transcript from Ladok must be attached. Foreign official transcripts are to be attached in both the original language and Swedish/English.

or

- Qualifications from other education; grades/certificate together with information about the education must be attached.

or

- Knowledge and skills acquired through prior learning (e.g. through work experience) related to the objectives and learning outcomes of the course.

In order to be evaluated for prior learning it is especially important to attach an explicit written description of your prior learning.

This description needs to indicate what you have done, during which time period and which knowledge and skills were acquired in correspondence to the objectives of the course you wish to replace by transferring credits. Documentation can include relevant service certificate, work description, letter of recommendation, contact information to prior employer.

Important!

Verify that you have filled out the form Application for transfer of credits correctly and that relevant documentation and certificates are attached. Incomplete applications will take longer to process before a decision can be made.

Remember that certain copied documents need to be certified as true copies of the original.

Transfer of credits can effect your right to student aid from CSN. For more information see www.csn.se
