Invitation letter for Master degree student xxxxxxxx

xxxxxxx, Master degree student in Molecular Biotechnology at University of Skövde, Sweden, is invited to work on his practical laboratory research thesis project at the Danish Research Institute of Translational Neuroscience, DANDRITE, part of the Nordic EMBL Partnership for Molecular Medicine, Aarhus University, Denmark.

Group leader and Associate Professor xxxxxx agree to host xxxxxx in her laboratory, supervise his thesis project and provide necessary space, lab equipment and consumables for the project.

It is planned that xxxxxx will work on a project addressing the genetic and neuronal circuit basis of learning and memory in a *Drosophila* model system. He will receive training in various different methods, among others *Drosophila* genetics and stock keeping, introduction to genetic tools for neuroscience (optogenetics, neuronal silencers, RNAi), *Drosophila* behavioural assays, nervous system dissection, immunohistochemistry, confocal microscopy and image analysis. xxxxxx will participate in weekly lab meetings and journal clubs and he is encouraged to attend talks at Aarhus University to broaden his theoretical background.

DANDRITE and DANDRITE group leader xxxxxx fully support xxxxxxxx application for an Erasmus traineeship scholarship for the planned the-sis period.

Kind regards

xxxxx
