Instructions

Please read the instructions below carefully!

No dictionaries are allowed to use in this exam, because it will test your Swedish vocabulary. If you have any questions regarding the vocabulary, ask the vigilator to contact me. If there are words in the exam that you don't understand, I can explain them to you, if I conclude that you can't be expected to know their meanings. The vigilator is not allowed to answer any such questions, and should therefore not be asked this type of question.

The grades on this exam is A, B, C, D, E and F. The grades A – E, with A the highest and E the lowest, stands for “pass”, and F “fail”. Maximum points are 89. To pass, 60% of the answers must be correct. The A grade requires 95% correct answers. To get maximum points, correct spelling is required. A passed exam gives 2,5 credits. Points are given for each question, and they can be seen by each question.

Please write your answers only on the lines in the exam, and on extra papers if you need. Any extra papers should be handed in together with the exam. Name, ID-number, and the number of the question/questions answered on the extra papers, must be clear on all extra papers handed in. Extra papers can be provided by the vigilator. If you wish to use scrap papers, extra papers can be used as such. However, please remember that they should not be part of the exam. Ask the vigilator to discard them for you before you leave the exam. Scrap papers are not allowed to bring to the exam.

Please write clearly! If your answer is impossible to read, no points will be given. You may use either a pencil or a pen, but please consider the fact that ink is not possible to erase, and that drawing lines through words makes it harder to read and assess the exam. For these reasons a pencil is preferred.

Please write your name and personal number on all papers of the exam, included any extra papers that you want to hand in.

Answer in the language indicated on each question.

The tasks in the exam consists of one phonetic and pronunciation part, one small essay part, one vocabulary part, and one translation part. The exam starts on the next page.

Lycka till! (Good luck)

Name: _____ Social security number: _____
Year month day number

1. Fonetik, fonologi och uttal (Phonetics, phonology and pronunciation)

Please answer the questions below.

1a. Phonemes and pronunciation

Compare Swedish to your own language.

Mention two Swedish sounds that also exist in your mother tongue, but are pronounced differently compared to the Swedish pronunciation of these two sounds. Also, describe in what way they differ from the Swedish pronunciation, for example if the pronunciation in the two languages differ in lip rounding, openness or closeness.

Alternatively, you can mention two Swedish sounds that don't exist in your mother tongue. Describe how they are pronounced, for example in terms of lip rounding, closeness or openness. Write your answer in English!
